

Seoan, Far From Paradise

Far from paradise
Your life may change
The white dream
May betray you
Days are longer
In this new era
Time's running behind you
Without looking back
Far from paradise
Never say
From this water
I shall not drink

You may believe this
Or you may not
You may sense life
Or just wait and let it pass by

My dreams, your dreams
Our dreams, white dreams

Nothing's gona change the world
Only your expression
Time's running behind you
Without looking back
Far from paradise
Never say
From this water
I shall not drink

You can see the sun
Burning my skin
You may see the rain
Soothing my needs

Burning my skin

White dreams, my dreams
your dreams, our dreams...

Far from paradise
Never say
From this water
I shall not drink
