

Seor, Who escaped?

Baby you should hurry
They don't wait
If that made you hopeless
you can breathe
by my side
by my side

They say
Should be busy
on this planet
Be aware and keep alerts
all the time to survive
We get alive
Don't you know
we fight and leave
and lost my way
and I just used to know

Maybe it started and
you'll know
when you open your eyes

We are living in the war

How far were we lying

We are living in the war

Who will listen to your prayers

We are living in the war
