

# September, Follow Me

To you have yourself a good time,  
oooh, yeee-hee-ey

The lies have always been the inspiration of our time,  
So rise, let's be a part of the equation,  
It's no crime

Now, time,  
It hasn't made us any younger,  
Yeah, I know,  
But I'm pretty sure I feel your hunger,  
So let's go

You know you've got to follow me,  
I ain't gonna set you free,  
But if you believe in me,  
Then I'll be giving you a good time,  
Follow me,  
It's in your biology,  
The one thing you really need,  
Is just to have yourself a good time,  
You've got to follow me,  
I've got to set you free,  
I'll be giving you a good time,  
It's in your biology

The roads we're built to lead us all in circles,  
It's so rough,  
Get close, but never reach your destination,  
Had enough,  
Now I never really got to know you, it's alright,  
'Cause you, you can be anyone you want to  
Yeah, tonight

You know you've got to follow me,  
I ain't gonna set you free,  
But if you believe in me,  
Then I'll be giving you a good time,  
Follow me,  
It's in your biology,  
The one thing you really need,  
Is just to have yourself a good time  
You know you've got to,  
whoa,  
You've got to set you free,  
I,  
whoa,  
it's in your biology

I don't have to fight for you,  
I said I don't have to die for you,  
'Cause we belong together, tonight,  
For now but not forever,  
It's alright

You know you've got to follow me,  
But if you believe in me,  
Then I'll be giving you a good time

You know you've got to follow me,  
I ain't gonna set you free, (I've got to set you free)  
But if you believe in me,  
Then I'll be giving you a good time,  
Follow me,

It's in your biology, (it's in your biology)  
The one thing you really need,  
Is just to have yourself a good time,  
You know you've got to,  
whoaa,  
you've got to set you free,  
I,  
whoaa,  
It's in your biology,  
It's in your biology
