

# September When, Bullet Me

I t feels like I'm burning inside  
Can you help me with some water  
I sleep all day and stay up all night  
I think I ought to see a doctor  
I can't get no credit no more  
All I've got is in my hands  
And I can no longer ignore  
where the situation stands

Chorus:

Duncan arrives with a gun in his hand

He is the man

He makes things easy

Duncan arrives with a gun in his hand

He is the man

He makes things easily

He makes things easily

You might think that it's a crazy idea

But I can't get out of my debt

So bullet bullet bullet my head

and get the situation set

Chorus

Bullet me

Bullet me

I take the full responsibility

Bullet me

Bullet me

I take the full responsibility

Now I take my steps in heaven

I got it over with

Duncan is back to work again

He got away with it

Oh everything is lovely

I love the human race

So I begin

I begin all over again
