

Septic Flesh, Android

You wanted me to be the perfect companion.
A trusty pleasant face on your possession.
My brothers were so cold without intentions.
They were so boring with their lack of desire.

I am User friendly. I am addicted to you.
I won't refuse to do whatever you 'll ask me.

I am tolerating your despotic reactions.
You are so fragile after all.
Nothing more than thinking, biological machines.
With circuits, organic and easily broken and torn.

I am User friendly. I am addicted to you.
I won't refuse to do whatever you 'll ask me.

You wanted me to be the perfect companion.
A trusty pleasant face on your possession.
My brothers were so cold without intentions.
They were so boring with their lack of desire.

I am User friendly. I am addicted to you.
I won't refuse to do whatever you 'll ask me.

I copy your names; I copy your faces.
I love changing characters, becoming someone else.
I am so excited to be a prototype.
I am immortal

I am User friendly. I am addicted to you.
I won't refuse to do whatever you 'll ask me.
