Sepultura, Lookaway (Master Vibe Mix)

Ahhhh...

Each time I pull it apart I get disgusted, can't do it today What makes it so good That a man would kill for it Lie just to lick a bit

Each time I pull it apart I get disgusted, can't do it today What makes it so good To lie just to lick

Fake it, you like it, just take me away. (hold it?), just save it and I'll be repaid

Each time I pull it apart I get disgusted, can't do it today What makes it so good That a man would kill for it To lie just to lick a bit

Each time I pull it apart I get disgusted, can't do it today What makes it so good To lie, to lick

Take it, enlarge it, became it, before Like it, I like it, and I'll be (can't tell)

Fake it, then like it, just take it tonight. Take it

I look at you, (then) you look at me, (then) you look away... (x14)
