

# Seraphim Shock, Little Gothic

Little gothic won't you make me come inside  
Fishnet stockings and that cross around your neck  
Think mother wouldn't like what Mary knew, and she did  
Little gothic gonna put my spell on you

Moonlight upon your face  
Wolfsbane fear in your eyes  
Your secret's safe amongst the dead

Little gothic won't you kindly get undressed  
I've got the toys that will make that velvet drip  
Think Mary wouldn't like what Jesus knew, and He did  
Little gothic gonna put my spell on you

Moonlight upon your face  
Wolfsbane fear in your eyes  
Your secret's safe amongst the dead

In darkness I will come again  
To hold you once again  
To kiss your wicked smile

Sex on bloodstained lips  
Lifeless doll eyes twitch

Moonlight upon your face  
Wolfsbane fear in your eyes  
Your secret's safe amongst the dead
