

# Seraphim Shock, Rise & Resist

Emptiness will always be  
Into the void like all before  
Nothing escapes this hours ash  
These people sleep a dyer's dream

Rise & Resist

What keeps us here to walk the line  
Another day conditioned slave  
So listen well to what they preach  
As figureheads laugh in your face

And they will take  
And take  
Until there is nothing

On and on the game it goes  
Fragile pawns in heavens play  
Denial rules our history  
Now don't you think,  
Why don't you think

Let us see among us
