

# Serena Ryder, Little Bit of Red

Ooooh

Hey you say you want to start over again  
like I ever wanted it to be any different  
I've been watching all your colours fade to blue  
said you'd come back like I'd want you want you  
stop pretending everything's all right

Chorus:

Oh baby blue oh baby blue  
come here I'm gonna smear another colour over you  
get out of bed you little sleepy head  
your black and white needs a little bit of red  
your black and white needs a little bit of red

Ooooh

Couldn't handle pressure like I put you through  
thought you might have bit off a little more than you could chew  
no i don't believe it when you say I will make it up to you  
said you'd come back didn't want you to want you to  
still pretending everything's all right

Chorus

Baby blue oh  
Baby blue oh

Chorus
