

Sergey Lazarev, Shiver

Shiver....

Shiver....

Talk to me, tell me all about your fantasy

Come with me, take me to a place I wanna be

You follow the lines of my body with your fingertips

You trigger and quench my desire, oh when you kiss my lips

Shiver, you give me shiver

The way that you touch, that makes me feel so alive

Shiver, you give me shiver

You're giving me thrills, give me chills up and down my spine

Make your move

Nothing is forbidden nor taboo

What you do, is stimulate my senses, break the rules

This game is addictive and baby I just play to win

(I just play to win)

My body is aching but my mind just won't give in

Here it comes again

Shiver, you give me shiver

The way that you touch, that makes me feel so alive

Shiver, you give me shiver

You're giving me thrills, give me chills up and down my spine

Shiver....

I can't stop myself...

I want it to go over...

Shiver....

My body's aching...

It's going right through me...

This game is addictive and baby I just play to win

(I just play to win)

My body is aching but my mind just won't give in

(I won't give in, won't give in)

Shiver, you give me shiver

The way that you touch, that makes me feel so alive

Shiver, you give me shiver

You give me thrills, give me chills up and down my spine
