

# Sergio Mendes, Harley

Harley, you are living in a world of love  
All around you and  
You're waiting for your dream to come alive  
In these days it seems so hard to survive  
And the way that you tell me  
To never let go  
So I hold on, I hold on,  
'Cause Harley, you'll be a star  
And the world will put their arms around you

Harley, there's a feeling that I get inside  
When you're singing  
And I know it's more than just a song I hear  
And your melody has cured me of my fear  
And on the way that you tell me  
Don't ever let go  
So I hold on, I hold on  
'Cause Harley, you'll be a star  
And the world will put their arms around you
