

# Sergio Mendes, Here Where I Belong

Here where I belong  
I wanna stay  
Here where there's love  
I'll make my way  
And never wander

Here where I found you  
All that I need  
Is in your eyes  
It's guaranteed  
For a lifetime

Here with you  
All my dreams are real  
Everything I feel  
I'm feeling for the first time  
No more shattered expectations  
No broken invitations chasing me

Used to think that love  
Was only bittersweet  
Used to think that love  
Could never be complete  
That was until I came  
Here where I belong
