

# Sergio Mendes, Lonely Woman

Lonely woman comes at night  
Look around but there's not a soul in sight  
Where's the lover's knockin' at your door)  
Don't you know that he's the one you're waitin' for?

Let him love you lonely woman  
Let him love you lonely woman  
Let him love you lonely woman  
From now on, that's how it's gonna be  
Turn him on, just turn him on and see  
From now on, that's how it's gonna be  
Just turn him on and see

Tender kisses ease your mind  
Stay with him and leave that lonely life behind  
Love him lady, hold him tight  
Let him show you how you reach that mornin' light

Let him love you lonely woman  
Let him love you lonely woman  
Let him love you lonely woman  
From now on, that's how it's gonna be  
Turn him on, just turn him on and see  
From now on, that's how it's gonna be  
Just turn him on and see

Lonely woman found her man  
And she is givin' all the lovin' that she can  
Fire's burnin', burnin' bright  
There is one less lonely woman here tonight

Let him love you lonely woman  
Let him love you lonely woman  
Let him love you lonely woman  
From now on, that's how it's gonna be  
Turn him on, just turn him on and see  
From now on, that's how it's gonna be

(Lonely woman, you don't have to be lonely any more)

From now on, that's how it's gonna be  
Turn him on, just turn him on and see
