

# Serj Tankian, Baby

You came to me within a dream  
Not everyone is who they seem  
All these words we cant redeem  
Like the great magic of our world  
Corroborated by your words  
Splitting planets into thirds

Baby oh baby  
Baby my baby  
Baby ooh babe  
I miss you, lalalala  
Baby oh baby  
Baby my babe  
Baby ooh babe  
I miss you

To all the leaves that fall in vain  
While god and goddess go insane  
All these words in your domain  
The watches kill time as the books read  
Inadvertently we bleed  
Fighting for what we deceive

Baby oh baby  
Baby my baby  
Baby ooh babe  
I miss you, lalalala  
Baby oh baby  
Baby my babe  
Baby ooh babe  
I miss you

Leave me alone  
Leave me alone  
Why can't you see that you always look calm,so  
nearing the end of the world, just leave me  
alone,  
Leave me alone  
Why can't you see that you always look  
so  
Nearing the end of the world, leave me alone,  
Leave me alone

Baby oh baby  
Baby my baby  
Baby ooh babe  
I miss you, lalalala  
Baby oh baby  
Baby my babe  
Baby ooh babe  
I miss you
