

# Sertab Erener, It Takes More

I've been around the world  
But never felt the burn of true desire  
I've fallen in and out  
No spark has ever turned into fire

It's not easy - trying please me  
But you have caught by eye  
If you want me - then make me see  
Prove that you're right

It's takes more than words for you to be my man  
Some things that you gotta understand  
You've gotta surrender your love to conquer my heart  
More than words for you to be my man

Come - sweet talk put aside  
Nowhere left to hide - make me feel it  
Come - look into my eyes  
Let me know tonight - can't conceal it

It's not easy - trying please me  
But you have caught by eye  
If you want me - then make me see  
Prove that you're right

It's takes more than words for you to be my man  
Some things that you gotta understand  
You've gotta surrender your love to conquer my heart  
More than words for you to be my man

Got such a silver tongue  
Don't get me - don't get me wrong  
It's just not way to win me over
