

# Sesame Street, Between

When there's cheese in the middle  
Of two slices of bread  
It's between, between  
And when you slip into the sheets  
Of your comfy bed  
You're between, between

Whenever that is on that side  
And this is on this  
Right there in the middle  
Is right between sis  
Between, between, between, between

When you're driving in a car  
Inside the painted lines

You're between, oooh between  
And if there's cream inside the cookie  
That you're gonna bite  
It's between, between

Yeah when there's someone on one side  
And someone on the other  
Right there in the middle  
You're right between brother  
Between, between, between, between

Now you know what I mean  
By between, between
