

Sesame Street, Hot In The City

Girl: It's hot

Man: Is it really?

Girl: You know it's hot
'Cause you can feel it

Kids know where to be when it's H - O - T
That spells hot in the city
Outside having fun
Hot fun in the sun
When it's hot in the city
All over town
Watch the kids cool down
When it's hot in the city
In the park on the street
Owww, they're beatin' the heat
When it's hot in the city, yeah
Let the temperture rise
There ain't no doubt
These kids know what cool is all about
Laughter's in the air
Kids don't give a care

When the heat kicks in
They chill out

Kids: Oooo, hot
Oooo, real hot
Oooo, hot
Oooo, real hot

Hey, they're footloose and free
When it's H - O - T
That spells hot in the city, oooh
When the sun rays beat
Down on the hot concrete
That's when it's hot in the city
Any place that's wet
Is a real good bet
When it's hot in the city
Doesn't matter what you do
Just as long as it's cool
When it's hot!
In the city!
