

Sesame Street, In The Library

There's a special place I know
That's not far from you or me
It's a place full of surprises
And it's called the library

In the library
You will find
Books of every shape and kind
In the library
The la la la library

You can read about flying
'Round the world in a balloon
Or find books about people
Who landed on the moon
There are stories about things like kings
Who dance with their fiddlers three
Or you can read about kids
Just like you and me

Yes, in the library
You will find
Books of every shape and kind
In the library

The la la la library

There's one in every town
You can borrow books for free
So come on down

You can read about sailors
Who sailed over stormy seas
Or find books about people
Who keep millions of bees
There are stories about birds or herds
Of a creature called a gnu
Or you can read about kids
Just like me and you

Yes, in the library
You will find
Books of every shape and kind
In the library
The la la la library
In the library
The la la la library
