

# Sesame Street, My New Computer

Television's an invention  
Close to my heart  
But I know something twice as cool  
And three times as smart  
Cups and pencil sharpeners  
Are okay machines  
But this one blows them all away  
Come see what I mean

You gotta see my new computer  
Come and check it out  
I'm gonna show you  
Ah - ha - ha  
Just what it's all about

First we gotta turn it on  
By flipping the switch  
Now you get to see exactly  
Which thing is which  
Computers need ????  
On what they should do  
They gotta take their orders  
From the keyboard and you

You gotta see my new computer  
Come and check it out

I'm gonna show you  
Ah - ha - ha  
Just what it's all about

Pressing on the keys  
Talk to the machine  
And every key you push  
You're changing pictures on the screen  
Tapping on that space bar  
Moving to the beat  
Rolling on the track ball  
Computing with our feet  
Watch the cursor moving  
Hear the disk drive groovin'

You gotta see my new computer  
Come and check it out  
I'm gonna show you  
Ah - ha - ha  
Just what it's all about  
You gotta see my new computer  
Come and check it out  
I'm gonna show you  
Ah - ha - ha  
Just what it's all about
