

Sesame Street, Picture A World

Picture a world where the rivers are clear
Where a dunk in the water is just a block or two from here
And try to think of a way to make it that way

Picture a world of honey warm haze
And the wind playing tag in the playground trees on summer days
And try to think of a way to make it that way

Brown frog talkin' to a butterfly
Flowers growin' oh, so high

Skies wide open, stars so near
Just reach up and touch one from here

Everybody picture a world where little kids run
Where the sunshine is pouring love and life on ev'ryone
And try to think of a way to make it that way
Make it that way
Make it that way
