

Sesame Street, Planets, Moon And Stars

Elmo: (speaking, to his doll) Baby David, look at the moon...and the stars (gasps) and the planets!

(sings) Planets, moon and stars
Above the world so high
Higher than the clouds
Higher than the sky

Planets, moon and stars
Are shining down through space
Each one in its home
Each one in its place

Earth is far below

Below each shining star
Earth is what we know
Earth is where we are

Planets, moon and stars
Above the world so high
Higher than the clouds
Higher than the sky

Wow. (laughs and yawns) Goodnight. (and he lies down and goes to sleep)
