

Sesame Street, That's About The Size

Oh everything comes in its own special size
I guess it can be measured by where you put your eyes
It's so big when you're close, it looks smaller back a bit
That's about the size of it

That's about the size
Where you put your eyes
That's about the size of it

Oh the big becomes the little when you see it back a bit
The huge becomes the dinky which is just the opposite
Of the larger that gets smaller it never seems to quit
That's about the size of it

That's about the size
Where you put your eyes
That's about the size of it

That the big become the little that's the way it seems to go
They make up a larger thing is something good to know
It's nice to know that though we're small there's always room to grow
And that's about the size of it

That's about the size
Where you put your eyes
That's about the size of it
