

Sesame Street, The Happiest Street In The World

If you feel lonely and you need a friend
I know a place on which you can depend
A place that's quiet and always near by
And you know there

No one's a stranger, the door's open wide
And what good things you'll find waiting inside
The smiles, the kindness, all troubles behind
When you go there

You're on the happiest street in the world
The happiest street in the beautiful world
A place to be on, a place to be free
For you and for me

Yes it's the happiest street in the world
The happiest street in the wonderful world
Wherever I ever go, the happiest street I know

You're on the happiest street in the world
The happiest street in the beautiful world

Wherever I ever go, the happiest street I know

Sometimes you worry, you're down on your fears
But, when you're with us, those thoughts disappear
We'll be together, our friendship will grow
So, you see here

The sun's always shining, the sky's always blue
And someone loving is waiting for you
It's not so far from the place that you are
Please come be here

'Cause it's the happiest street in the world
The happiest street in the wonderful world
Wherever I ever go, the happiest street I know

You're on the happiest street in the world
The happiest street in the beautiful world
Wherever I ever go, the happiest street I know
