

# Sesame Street, You're A Family

There's my mom and me  
And my brother makes three  
And as far as I see  
We're a family (yup) a family  
I love her and she  
Says she really loves me  
That's the way it should be  
In a family (yup) a family  
Each home may be different  
But I don't ask why  
'Cause love is all I need to get by  
So if you're like me  
Love somebody and see  
How it works perfectly 1, 2, 3  
You're a family

Sometimes you can live only with your mom

Or sometimes just with your dad  
Or you could live with your grandma or grandpa  
Or sometimes with your aunt and uncle  
I even know a girl who lives with her aunt alone  
But they're all family just like mine  
And that's the truth

Each home may be different  
But I don't ask why  
'Cause love is all I need to get by  
So if you're like me  
Love somebody and see  
How it works perfectly 1, 2, 3  
You're a family (yup!)
