

Sesame Street, You're Gonna Be A Star

You're gonna be a star
Somewhere in the sky
Bright and proud, way up high.
You're gonna be a star
Somewhere in the blue
There's a spot just for you!

At night when the sky is clearing
You'll talk with the other stars

I bet you'll be overhearing
What Jupiter said to Mars!

A shiny little star
Is what you're gonna be--
Just you wait and see!
