

# Seven Ender, What You Want

What you want  
Is what you got  
Don't try to come back crawling to me  
You had a needle and I gave you some thread  
But you can't speak easily

I am not the only one  
Who cares to speak out loud  
And I am already there  
You got your work cut out for you

What you want  
Is what you got  
Don't think you'll ever be this close  
I'm tired of playing all of these games  
With my strings stretching the most

I am not the only one  
Who cares to speak out loud  
And I am already there  
You got your work cut out for you  
You got your work cut out for  
You  
You got your work cut out for you

And I am not the only one  
Who cares to speak out loud  
And I am the only one who cares  
You've got your work cut out for you

So you sit  
Waiting for me  
Hoping that I will bring good news  
Miles apart  
Me from you  
Somehow I fulfill all our truths  
Struggle to climb  
Out of our holes  
But deeper and deeper we fall now

Just give it up  
Because there's no way that you'll ever get  
Somewhere that you have gotta  
Be inside the heads and minds of all those who have listened to us for the first time  
The last time  
And inbetween

Give the lives of golden eyes and diamond seas that take us  
To the top of what we all know  
Here stands  
You  
You got your work cut out for you  
You  
You got your work cut out for

Be inside the heads and minds of all those who have listened to us for the first time  
The last time  
And inbetween  
Give the lives of golden eyes and diamond seas that take us  
To the top of what we all know  
Here stands  
You
