

Seven Mary Three, In-Between

Hey man:
you're so complicated and mean
maybe your system needs adjustment
she is a famous people collector
I'm juggling J-O-B the Judger

Maybe the words don't mean a thing
they never fill the dead man's shoes
who killed the culture-hero trip?
if it was me then it was you

You can be intimidating when
people think you're complicated
how could you be so in-between?
what they want and what you need

"Man, you're so complicated and mean"
the young mustafah cleaner said
"Don't waste your mojo on a curse
politic your angry reason out of bed"

And if your words mean anything
make them a positive foundation
back it up with what you do
wring the love out of frustration

You can be intimidated when
people think you're complicated
how could you be so in-between?
what they want and what you need
