

Seven Mary Three, Lullabye

Angel go to sleep
She says her prayers goodnight
You're water in the ear to me
But they make her feel alright

A green-gold stretch of road
Is what she's dreamin' of
Roll the windows down on 44
I'd swear the sky just opens up

Angel get some rest
And summer sleep tonight
Listen for your lullabye
And I'm not by your side

So angel goes to sleep
She says her prayers goodnight
They're water in the ear to me
But they make her feel alright

Water in the ear to me, yeah
But they make her feel alright
