

# Seven Nations, No Reason

He can't believe his eyes  
but with much surprise - believes;  
She won't be back today  
I thought I heard her say goodbye;  
And I believe - in nothing's wrong  
Don't get me wrong  
That's the way it should be.

He's floating 'round the day  
Won't come down no way - no reason;  
And I found out today  
That maybe it's okay  
To carry on this way  
If you think it's good for you;  
And I believe - in a goodbye  
Where no one will cry  
That's the way it should be.
