

Seven Places, Landslide

I feel crazy, hope is hazy right now
but I won't freak out, I won't freak out
at the sound of the Landslide inside
fear wants to take my peace of mind
won't run, won't hide
I will lift my hands up high

In my troubles, I have doubled my prayers
'cause I need them, I need them like I need the air
Landslide, inside, fear wants to take my peace of mind
won't run, won't hide
I will lift my hands up high
here's to the Name above all names
I will trust You Jesus, I'll be brave

I will live my life day by day
'cause You're the only Truth the only Way out of
This Landslide inside, fear wants to take my peace of mind
won't run, won't hide
I will lift my hands up high
here's to the Name above all names
here's to the only one who saves
I will trust You Jesus, I'll be brave
