

# Seven Shed, On Standby

Would you stay on standby  
Because I need another alibi  
In the wrong place at the wrong time  
Could you talk a fine line  
I need to know that I'll be fine  
Bulletproof  
It's like I've never been born  
We conceive in the alleyways  
It's like I've never been born  
We believe in other ways  
That you do, and you did  
And there's proof that we did wrong tonight

Could you sense a tragedy  
Because I saw it on the BBC  
There's a panel on that channel  
Could you walk a narrow line  
I need to know I'll serve my time  
With some use

It's like I've never been born  
We conceive in the alleyways  
It's like I've never been born  
We believe in other ways  
That you do, and you did  
And there's proof that we did wrong tonight

And tonight, you can cry if you want to  
But it won't help you  
You can cry, if you want to  
But it won't help you  
To get you through this crime  
It will plague you, standby

We did wrong, we did wrong
