

# Sevendust, Disease

I stuck my head in the sand  
Cut my face to hell  
There was nothing - nothing but my life unanswered  
The truth has died  
And in the world you wanted to find  
There was nothing - nothing but the unforgiven

[CHORUS:]  
Destroy all you see  
Tattoo the world - change everything  
Save the world for me  
Tattoo the world

Do I care anymore - if there's a new beginning  
The simple plan is broken  
Every time it's given  
I needed thrust and love but grab the hand of hate  
To help me up again  
To fuck me up again

[CHORUS]

Here it comes Here it comes!

[CHORUS]
