

# Sevendust, Driven

(stop the man)

Fom endin up with all the chips so he can't  
(promse him an only chance)  
To have the freedom that's been takin from me

(you - can - try - to - lift - your - head - no)  
You fucked up with me now live with the truth  
Find a reason to lie (try)

Seems like it hasn't been long - I've given  
(so much how could you hide)  
You're sick with all the guilt you're never - forgiven  
(you try to wash it away - wash it away)

(ask again) why all the dreams I had  
Are now left broken  
(punished for a wounded past)  
Afraid to wake and find reality breathin  
(why - has - life - been - taken - from - me)  
I fucked up and now I live with the truth  
With no reason to lie (I)

Feel like it hasn't been long - I'm driven  
(to keep myself alive)  
You're sick with all the guilty you're never - forgiven  
(you'll never wash it away - wash it away)

(How can you live with yourself)
