

# Sevendust, Trust

When I hold my head down to the ground  
And I wish you were here with me  
Seems like you're always around  
I was blind to see  
Too good to be true  
you can't stay with me  
I wish she was all I need  
And it's getting late. and it's cold outside  
So cold. so cold

(TRUST)

I've wronged you  
And steal everything from the truth  
Could we find ourselves  
walking through  
A field with no solitude  
The pain goes on

Insensitive to all your needs  
Did you ever want to stay with me  
Never try to put you down  
And I never want to see you leave  
I still can't believe you're going to leave  
I wish she was all I needed  
It's getting late and it's cold outside  
So cold. so cold

[Chorus repeat 3x]
