

# Sevenglory, Big Top

Following after you  
Decided against our own drives to something new  
Now we can hardly see over the big top and fantasies  
Following after you  
It's hard to believe just all that you've brought us through  
I've tasted the meaning of truth  
But I can't figure out just what I'm gonna do  
It's Crazy  
Spinning around  
I'm calling now

Where do we go now?  
Where do we go now through this changing season?  
Where do we go now?  
Where do we go now that the tides are changing?

Following after you  
It's easy to see to see just all that you brought us through  
Now we can finally see over the big top and fantasies.  
Seems crazy with all that I've found  
Still calling now

In this moment  
I have chosen  
You are knowing  
You alone

Where do we go now?  
Where do we go now?
