

# Sevenglory, Love You Forever

There's no greater time  
Than a time like this I know  
There's no greater moment  
Than the moment when you let your love show

So take me away  
Take me away

And I, I wanna be where you are  
I wanna love you forever  
And I, I wanna see through your heart  
Only to love you forever

Lost in a season  
As it slips away from me I'm breathing in  
Taking all this for granted  
I let it begin

Forever's not enough time to gather all my love for you  
I find desperate reasons  
desperate rhymes  
There's nothing I can do
