Sevenglory, The Hope

Look up and lift your eyes And see the vast despair The need is rising high And it calls for us to care

Will we choose to hear the call?
Will we rise up? Will we fall?
Will we stand? Will we wait? Will we run?
Cause the hope is in your hands
Are you willing?
Are you willing?

Look up the time is now Or fear will overcome To close your eyes destroys us all We've got to face today

Pre-Chorus Chorus x2

The earth is crying desperately We close our eyes in disbelief And everything we wanna see Is covered by the mystery The earth is crying desperately We close our eyes in disbelief And everything we wanna see Is covered by the mystery

Chorus x2
