Seventh Avenue, Touch Of Your Love

<I>[M: Herbie Langhans and Geronimo Stade; L: Geronimo Stade]

I will always remember the day That day when you came in my life You bound my look and touched my soul From here to eternity

<l>[BRIDGE]
I don't know how to reach you
To reach is just too far
Your name always reminds me
To the dreams of my heart

<I>[CHORUS]
Now I'm standing here
Gazing the 7th heaven
And I hope you hear my whisper
Listen to my silent screams
When I close my eyes and think at you
Remember what you'd done for me
Long before I took my first breath
You saved me from eternal death

I'm walking through the city
The streets are wet tonight
My past is running through my brain
And I am wondering why

I can feel the touch of your love As if it was a real touch Eternal silence bites my soul And I don't know how to reach you

<l>[BRIDGE] I don't know how to tell you Just what you mean to me Your name always reminds me To the dreams of my heart

<I>[CHORUS]
