

# Shad, Now A Daze

I'm focused on trying to stay focused  
In '06 I dealt with some blows now the process  
Of sorting thru these ghosts can feel hopeless  
It's bogus but it still gets under the skin like osmosis  
Yo this world's so sick  
Like ne-yo's hit o folks with no OHIP  
Don't slip  
Know who the staff you roll with is  
Your staff can turn to snakes like Moses'  
And motives get exposed quick  
When cash is grossed so don't trip  
No sum is worth what your soul is  
No sun immersed in the coldness  
No son, reverse like the poles  
Get past the bitterness out the standstill  
It wasn't in the cards  
Some ppl can't deal  
Play the hand you're dealt  
Might make a grand still  
A man's real if we can return like Grant Hill

Those that know Shad know that he's on his own path  
Like a nomad rolling without a roadmap  
Just 4 lads in a topaz with no gas  
I call my car Rocafella cause it's got a broke dash  
My generation's movin so fast  
Runnin like old taps  
From fear and stress and tears choked back

Boys hold gats while the girls got no strap  
On their dresses and won't eat 'less it's low-fat  
Between low-cut tops and teeth with gold caps  
That new school look's more crazy than OCAD's  
When there's no dads to say don't show that  
Make em look in your eyes, your mind's where the show's at  
And you need more than beats for a dope track  
Even with more hooks than a coat rack  
And more hot lines than 1-800 phones  
That's why most cats in this rap game just don't last  
It's not vocab they need to grow it's go nads  
And back bone so they can speak and not hold back  
We need folks with faith that's gon last  
To teach the younger ones how to live with no mask  
And pose the kind of questions that most just won't ask  
And keep that hope stashed like a safe of cold cash  
Our vision for the future cnt fade or go black  
Like some Kodak pictures at night with no flash  
Them cats be pollutin the air like smoke stacks  
Let the freshness in get your windows cracked
