

# Shaded Red, Slow Suicide

Luckier than dead or living  
Is the person who never existed  
They've never seen the outrageous violence  
That takes place here  
Feel the tears of the victims  
With no one to comfort them  
Led like lambs to a slaughter  
While you watch in silence

Chorus:  
There's something more to talk about  
Than how to sleep and fill your mouth  
It's suicide to run your life by I

Verse:  
There's hunger there is violence  
People butchered for their beliefs  
Someone else's tears don't move you  
Your silence is slow suicide

Chorus:  
There's something more to talk about  
Than how to sleep and fill your mouth  
It's suicide to run your life by I  
When all you'll ever do  
Is work and play while they burn away  
It's suicide to be a light for no one

Verse:  
When your life is over  
An ocean of people gather before you  
They're all pointing their fingers  
Shouting take this man away...you don't deserve to stay

Chorus:  
There's something more to talk about  
Than how to sleep and fill your mouth  
It's suicide to run your life by I  
When all you'll ever do  
Is work and play while they burn away  
It's suicide to be a light for no one.
