## Shaded Red, Sunk

caught in the undertow down i go, deep dark below hold my breath, fight to find anything some sort of life-line

sunk
can i find my way
to the surface i would pay
anything to get new life
lift me up from this compromise

## silence

i want to scream out, water fills my lungs i want to get out but it's just begun i can't breathe i want to leave oh i need you to save me now

upside down, turn around, aqua bound swim to the ground endless war, ocean floor, needing more any way i'm done for
