

# Shades Apart, Lullabye

What's this buzzing in my head  
Kitchen light is always humming  
Singing a song about summertime  
Stars erased by the haze

Electric air fills up the night  
Blue tv screen gives me sunshine  
I'm swallowed up by the summertime  
Shadows spin on the wall

I've got no time for you  
You've got no time for me

Let's just end it for a while  
Rain's a lullabye

What's this buzzing in my head  
I can't make out what you just said  
Daylight won't come today

I've got no time for this  
You say this is not the time  
Let's just end it for a while  
Quiet all the sound for me
