

# Shades Apart, The Tilt

Clock ticks  
Memory slips  
Call it bliss  
Curl your lips into a smile

Ignition  
Let's take a ride to see the fireworks  
Exploding  
Don't turn the lights off yet I'm fighting sleep

Wake up my senses  
Open the curtain on my mind  
I know I still believe in you

Phone rings  
It's Valerie  
Seeing  
Can you come to a birthday party

Free falling  
Small talk can get so small some times  
Recalling  
My favorite episode with out looking up

Ecstatic  
The static rocks the radio  
God Dammit  
Automatically I stare into your eyes
