

Shadow Project, Days Of Glory

If you cry by the riverside - well, no one will know
If you hide in the shadows - well, you will be ignored
If I hold my life in my hands - no one will understand*
and if I should die before I wake - I'd like to make the reason known

If you stand on hollowed ground - your shadow boxing with your soul
and there'll be nothing left for you to hold
and so your fears release control

Devils at your doorstep

Hung far below, that's all that the end brings
you're left all alone

Now we are passing over,
this mournful character pales
moving still bodies of the dead
in their glory days

Now you've had it - all else fades
Now you've had it, in our.....
