

Shadow Project, Static Jesus

Fear the people
With your back
Against the light
With your face inside my life

I can strike out at you
Wheels are running out of you
With this light cannot see
Wills are tearing into me

It's wounded your fear
But it's changed in ways
That static Jesus, He doesn't hear

Fear all the people you cannot see
Feel the people inside of me
Where is the moon tonight'
It's so quiet
Where is the moon tonight'

It's very cold
And it's very cold
It's very blood of blood
Static Jesus fear me now
