

# Shaggy 2 Dope, Meltdown

Industrial wasted the whole hood is  
Toxic smoke for all ya little kids  
Bring the family, come down to delray  
Where the nuclear air will microwave your brain  
Straight dogs get fat like wild boars  
Attackin in packs and bringing down the doors  
Giant rats, big as five feet long  
Some even got wings, attack you airborne  
We go fine ho's, hot as can be,  
But she might have a hand growing outta her knee  
Don't bother me my little homie gots a duck head  
I tell him "quack" like it was nothing said  
Bitches round her are radio active  
Burn right through any provocative  
Right here is where ya wanna vacation  
'less you scared of a little radiation

(Every body dies) Everybody dies anyway so why not  
(Every body dies) Everybody dies anyway bo-oring  
(Every body dies) Everybody dies anyway so why not  
It's a wonder place to stay!  
Do it in Delray!  
(Every body dies) Everybody dies anyway so why not  
(Every body dies) Everybody dies anyway bo-oring  
(Every body dies) Everybody dies anyway so why not  
It's a wonder place to stay!  
Do it in Delray!

A truck spilled plutonium all over the streets  
Mutating everybody into freaks  
I gotta nose growin' outta my forehead  
I'm living in an old nuclear warhead  
Siamese twins are born in 5 packs  
Ninjas with legs growin outta their backs, kickin' it  
Let it rain, let it drip hot acid  
Do it in delray! It's fantastic!  
Come visit, ain' nothing exquisite  
Something run about you have you screaming "what the fuck is it?"  
Air's fucked up, so you lucked up  
Grow a mouth under your ear that never shuts up  
No hotels, just crash in the trash  
Oh that smell is just atomic gas  
This is the place for you and your loved ones  
Poisonous, deadly, sickly and Fun!

(Every body dies) Everybody dies anyway so why not  
(Every body dies) Everybody dies anyway bo-oring  
(Every body dies) Everybody dies anyway so why not  
It's a wonder place to stay!  
Do it in Delray  
(Every body dies) Everybody dies anyway so why not  
(Every body dies) Everybody dies anyway bo-oring  
(Every body dies) Everybody dies anyway so why not  
It's a wonder place to stay!  
Do it in Delray

I was attacked by somethin'  
Half man, half opossum  
Any fucking who that shot him  
But it wouldn't die  
I shot it some mo'  
It just kept going  
The dope man's got a fish head  
With a hook in his lip

He don't care if you look  
But don't trip  
A chemically molded, beautiful place  
(Ew that bitch got a dick growing outta her face)  
Come and climb a smoke stack and take a hit  
Take a look into the black smoke bottomless pit  
My face feels hot, I feel it meltin'  
Seconds later that man was a skeleton  
No food, no shopping plaza malls  
Just a seven legged man that crawls  
An he'd sparen' you a dime or two  
Bring the family through  
This is the place to do!

(Every body dies) Everybody dies anyway so why not  
(Every body dies) Everybody dies anyway bo-oring  
(Every body dies) Everybody dies anyway so why not  
It's a wonder place to stay!  
Do it in Delray  
(Every body dies) Everybody dies anyway so why not  
(Every body dies) Everybody dies anyway bo-oring  
(Every body dies) Everybody dies anyway so why not  
It's a wonder place to stay!  
Do it in Delray
