Fat shout to my manager had to get ya

Made contact sent the G4 for ya

My butler Carlos opened up my door for ya

Little picnic laid out on my floor for ya

Gimme the rock I'm a score for ya

Made a classic move were the rich and the famous

Take you see places you don't know what the name is

Make you eat food you don't know what the name is

Lace you with designers you don't know what the name is

Go to buy a globe I could point you where Spain is  
Take you to the airport to see where the plane is  
On a long flight, lay out where my aim is
