

# Shaggy, Leave It To Me

Uh-huh

Now this one goes out to my lady

I want me and you to go on this wonderful love rendezvous

Ha ha ha ha

One on one

Give you a little love escapade,

You know what I'm saying?

Mr. Lover

Candlelight, dinner for two

Just me and you

Under the moon,

Sailing on a summer night cruise

I mean to rock your whole world baby

I'm da man allowed to drive you crazy

Set the motion to the ocean,

Cause some commotion

Girl surrender to my love potion

I'll hit you off now with some hot oil lotion

I play it safe so let me break out my Trojan

Leave it to me, baby

We can turn on the heat, baby

And wrinkle the sheets, baby

Whatever you need, baby [X2]

Now let me find a day real fine

Hot tub, jacuzzi, caviar with some white wine

Girl, I'm livin'-livin' in style

Mansion in the hills and not another house for miles

Now let me take you and show off my pet reptile

In two days gonna feed it to my rottweiler

No interruptions today

Leave it to me and have things my way

Leave it to me, baby

We can turn on the heat, baby

And wrinkle the sheets, baby

Whatever you need, baby [X2]

`Cuz I like the way you do the things you do

I wanna make sweet love to you [X2]

I wanna send chills up your spine

And make you feel good inside

And explode just like a land mine

I'm here to cunt and thrill and that's my mission

Love-making with timing and precision

My skills is kickin'

An' like breakin'

Proper lovin; leave you hummin

Sweet melodies of future come

Prepare to get soaked in sweat, girl, yeah

`Cuz you ain't seen nothin' yet

Leave it to me, baby

We can turn on the heat, baby

And wrinkle the sheets, baby

Whatever you need, baby [X2]
