

Shaggy, Seasons (ft. OMI)

Girl you must be sent from above
You keep me warm under the winter glove
Your smile is colorful
Like the flowers in the spring
I'm in love watching when you do your thing, thing thing

I never meant to fall for your love
I know you're all I'm thinking of
This is more than a summer fling
It's only right that I put on the ring, ring, ring

So, baby will you leave me sight?
Come on!
I won't be ok.
I guess it's the last time ☐
Let me right through every season
For every season, with no reason
There ain't no reason you can't stay
Come on!
right through every season /3x

Girl you bring me up
Just like the Sun on the horizon
And even when it rains I'm enlightened
You're so sexy, when you swing
I'm in love watching when you do your thing, thing thing
Girl you make the heart skip a bit
And any time you're in I'm not sleep
Feel like the leaves when they drop off the limbs
Make a noise, like put on the ring, ring ring

In a world /2x
Without your love
I don't think I'd be able to breathe
Out of memories when I should be dreaming
So, baby will you leave my right?
Come on!
I won't be ok.
I guess it's the last time ☐
Let me right through every season
There ain't no reason you can't stay!
