

Shaimus, All Of This

Hey girl, whatcha doin?
There's something in the kitchen that shouldn't be brewin
Oh, hey, step away
We should save our love for another day
But hey babe, you got me goin
The kitchen's on fire and we're stuck in the oven
Hey, oh, you should know
All of this makes me love you more

Hey and everything seems alright
I know that you will have me tonight
Take me where my heart says yes but my mind will say no (mind will say no)

Hey babe, you got me lover
The house burned down and we're running for cover
Hey, oh, you should know
All of this makes me love you more

Hey and everything seems alright
I know that you will have me tonight
Take me where my heart says yes but my mind will say no (mind will say no)
Mind will say no

Hey babe, you got me lover
The house burned down and we're running for cover
Hey, oh, you should know
All of this makes me love you more

All of this makes me love you more
